USING THE APPLICATION

PHASE 1

Go to Shopify store:

- https://testadith.myshopify.com/password
- password: ordertrack

1. Choose the test "White Shirt" product
2. Click buy now
3. Add random billing details and continue to payment
4. Add 1 as Card Number to simulate successful transaction
5. Add 'Bogus Gateway' as name on card
6. Add any future expiration date and 3-digit security code and click pay now

By now Shopify would've notified my backend

PHASE 2

- Go to Web App:
- https://ordertrack101.herokuapp.com/

1. You should see your order at the extreme bottom
2. Hit Edit email to edit email or Edit Phone to edit phone
3. Some entries don't have either phone or email, An Add button is present in such cases.
